

Chapman Elementary grade 4/5 Class Notes

The week of October 21-25, 2019

Book Fair

By Javan And Alysha

Are you wondering when the book fair is? Well we will tell you down below.

When - Oct. 28th - Nov. 1st 8am-2:30pm/Saturday Nov. 2nd, 10am.-2pm./Monday Nov. 4th 8am.- 2:30pm.

Where - At Chapman School

Why - To get new books that you haven't read before. It is also to make reading more fun, because there are a series of books you may like, such as Diary of a Wimpy kid, infinity Rings, Fly Guy, Captain Underpants, And much more.

Here are some new book titles: Guts, The Forgotten Girl, Can I be your Dog?, Diary of an Awesome Friendly Kid, Racing in the Rain, Dogs Breath, This Pigeon HAS to go to school, Diary Of A Pug, Diary of An Ice Princess, and there are posters that you can get.

Prices - There are many books that are \$16 or under.

Opinion Piece By Autumn Taylor-Kremer

We should have a talk about why class pets are a good idea. Some reasons why class pets are a good idea are that they teach kids responsibility, develop a nurturing attitude, and they increase student's awareness. While having a class pet is fun, it can be distracting and a health hazard to people with allergies. But all that aside, I love class pets and I feel it would be fair to get other people's opinion on class pets, so here you go. Well I think class pets will be amazing because we can learn how to take care of an animal. I would like a hamster because it would be fun.

Bring snow gear

By: Kiano and Jaxon

Winter is coming and it is going to snow soon. So you better bring snow pants, snow boots, a warm jacket, and warm clothes. We go outside two times a day for a total of 40 minutes. Students are not allowed to go out unless they have warm enough clothes.

Boys basketball Team By: Miles & Alana

We are going to tell you about the boys basketball team. We have six facts about the boys basketball team. There are 13 boys on the team. The basketball team has some new members, and they're catching up with the kids that were on the team last year. The old members need to work together with the new teammates. Well we did ask the coach these facts so I am going to involve her. The coach said the team is doing great, but they need to work together more. The basketball team's goal is to get better at layups and defense. All of the team is learning fundamentals. In the beginning, they warm up by trying to shoot 100 hoops and 3 manweaves. The coach motivates her team by timing them in shots, dribbles, and different drills.

Girls basketball Milleah and Landyn

We interviewed the girls basketball team coach on October 11, 2019. Ms. K is the coach of the girls basketball team. Here are some of the things that she said. She said, "It's going great." There are 15 girls on the team, she also stated that, "We are a young and inexperienced team." She tries to make it fun and make them understand how to play the game correctly. She also tries to keep them eligible so they can play in the games.

Science update By Aaron Bright

In this week of science, we have been learning about human skin. If you cut a piece of skin into the shape of a cube, it would be layered like this: First the epidermis. The epidermis is the skin that is protecting your body from drying out and the elements. The second one is the dermis: The dermis is the thick layer of living tissue below the epidermis which forms from the true skin, containing blood capillaries, nerve endings, sweat glands, hair follicles, and other structures. The last one is the hypodermis: The hypodermis connects the tissue and the bone or muscle together. Our skin is the largest human organ.
